Universal Cleaner

PlyntBlend is an eco-friendly, all-purpose cleaner that easily removes dirt and grime from any surface. Powered by Plynt Tech's bio-surfactant, it's non-toxic, biodegradable, and safe for daily use. Get a powerful clean without harsh chemicals, perfect for homes and businesses.

Available In:

275 Gal Totes, 55 Gal Drums, 5 Gal Pails, 4 x 1 Gal Cases

Product Overview

Plynt Tech delivers industrial-strength cleaning solutions specifically designed for large-scale operations and corporate environments. Whether it's our durable wipes, hand cleaners, or revolutionary degreasers, Plynt Tech provides powerful, effective tools to meet the rigorous demands of industrial and commercial use.

Our proprietary Bio-Surfactant, FDA-approved (GRAS list), forms nanoparticles that encapsulate and remove even the toughest contaminants like oil, grease, and grime, ensuring cleaner and safer facilities.

Safety and Eco-Friendliness

Plynt Tech products are non-toxic and 100% biodegradable, making them not only safe for employees but also environmentally responsible. Our solutions eliminate the need for harsh chemicals, reducing risk in the workplace while ensuring compliance with sustainability initiatives.

Corporations that partner with Plynt Tech demonstrate their commitment to both operational efficiency and environmental stewardship, creating safer, greener work environments.

Partner with Plynt Tech to ensure a safer, cleaner, and more cost-effective work environment, empowering your team and boosting efficiency.

The Science Behind Plynt Tech's Formula

Hydrophobic Head

Strongly attracted to water

Hydrophilic Tail

Strongly attracted to oil & grease

Nanoparticle Size: 1.2nm

Enabling powerful cleaning at the molecular level

Safety First with Formula-Driven Innovation

At Plynt Tech, we prioritize safety without compromising performance. Our non-toxic cleaning solutions are safe, effective, and provide a much-needed alternative to harsh chemicals on the market today. With Plynt Tech, you get industrial-strength results while protecting your team and the environment.

Plynt Tech's Commitment to a Greener Tomorrow

We are committed to keeping our planet clean, safe, and healthy for future generations. Plynt Tech products are designed to reduce environmental impact while delivering superior cleaning performance.

By choosing Plynt Tech, you choose to protect your home, workplace, and community from toxic chemicals.

Contains **ZERO** Harmful Chemicals

- Chlorine
- Ammonia
- Pyrethroids
- Biocides
- VOCs
- SVOCs
- POMs
- NPEs
- PCBs
- PAHs
- Phthalates
- Organophosphates

No Personal Protective Equipment (PPE) required.

Versatile Solutions for Industrial Cleaning

Oil & Gas

Cleaning Mechanics

Equipment Maintenance

Environmental Policy & Programs

Plynt Tech's advanced, proprietary formula uses bio-nanotechnology to create nanoparticles as small as 1.2 nanometers. These particles offer superior surface activity, rapidly encapsulating oil, grease, and contaminants. When rinsed with water, these pollutants are easily removed as biodegradable biomass. Our Bio-Surfactants are far more effective than conventional soaps or detergents, making Plynt Tech the smart, eco-friendly choice for tackling tough grime.

We combine modern science with proven solutions to deliver products that increase efficiency, lower costs, and minimize disruptions to your current processes. Plynt Tech helps reduce chemical usage and shrink your carbon footprint.

Plynt Tech's eco-friendly formulas are Bio-Preferred and offer "Ultimate" biodegradability, making them safe for use in sensitive environments where disposal or runoff is a concern.
